I. Introduction
The University of Texas at Austin brand is known throughout the world. But a brand is more than a logo, a tagline or a website. It’s also about personal experiences and interactions. Our brand is a combination of what people see, feel, hear and think about The University of Texas at Austin when they hear our stories or see the marks that represent UT Austin.

Our brand is built upon a strong history of leadership in combining public access to excellence at undergraduate and graduate levels of education and across an unmatched breadth in faculty, programs and research.

Every time we engage and interact, we’re influencing people’s perception of the UT brand. That’s why consistency is key. The experience from one touch point to another should feel reassuring and familiar. It is important that we speak with a unified vision and voice to continue to build upon the strength of the UT brand.
Identity Foundations
Primary Signature Overview

1) The University of Texas at Austin wordmark is the primary means by which we are recognized and should appear on all university communications. The wordmark has been specially drawn and spaced; do not redraw, change, stack or reposition it.

2) The wordmark may be used as instructed by the guidelines in all print and digital uses without additional approval. Any proposed use of the wordmark on merchandise (such as but not limited to T-shirts, mugs, pens, hats) must have prior written approval from the Office of Trademark Licensing and be produced under a licensing agreement by an approved vendor.

I. Introduction
Identity Foundations
Primary Signature Anatomy

1) The University Primary Signature is composed of the three parts: the shield graphic, “Texas,” and the official university name.

2) When using the Primary Signature, it must be represented exactly as shown below. If any of these three parts are not present, the Primary Signature lockup is incomplete.

3) The shield in our Primary Signature is an extraction from the university seal. The 18 leaves of the olive and oak represent the 18 colleges of the University. The lines in the book correspond to the opening line of our school spirit song, “The Eyes of Texas.”
Clear Space and Minimum Size

1) To maintain our brand’s integrity, clarity and consistency, the size and space left around the logo must always be maintained across all forms of communication.

2) Use the shield in the lockup that you are working with to determine the space left around the logo, also called the ‘clear space’ or ‘exclusion zone.’ At the top and bottom of the logo, there should be no words or images placed in the area equal to or greater than the height of the shield. To the left and right sides of the logo, there should be no words or images placed in the area equal to or greater than the width of the shield.

3) Minimum size requirements for the reproduction of our logo helps maintain brand presence and legibility. The height of the shield should be 3/8” or larger for print, and 50px or greater for the web. These rules will apply to all signature types.
Improper Uses

Do not change the typeface.  

Do not change the color.  

Do not place the signature on inappropriate colors.

---

Do not apply special effects.  

Do not distort the signature.  

Do not use tints of Pantone 159.

---

Do not apply gradients.  

Do not outline the signature.  

Do not rotate the signature.
Primary Color Palette

1) Color is an important tool for our brand system. Using color in a consistent way reinforces our brand and fosters trust and recognition. Burnt orange and white are the official colors and the primary palette we use to represent The University of Texas at Austin.

The distinctive burnt orange color plays a major role in establishing our identity and should be implemented consistently in all web applications and print communications such as business cards, letterhead and presentations, as well as a broad range of marketing materials.

2) Our primary color is burnt orange Pantone 159. Find the CMYK, RGB and HEX values in the chart below.

3) Our secondary color is gray Pantone 432. Find its corresponding CMYK, RGB and HEX values in the chart below.
One Color Reproduction

1) When reproduced in color the wordmark should appear in The University of Texas at Austin's signature color, burnt orange, black or all white for reverses on dark backgrounds.

2) Black, white and gray are the only alternate colors that may be used when the burnt orange cannot be used.

3) The wordmark can be reversed out (white) when the background is burnt orange, black or gray.
Typography

1) The university’s typographic identity is visible across many applications, including print, electronic and environmental displays. The following type selections have been made to best represent the voice of the university and to maintain a consistent tone throughout various university communications.

2) Our typeface, GT Sectra, is a contemporary serif typeface combining the calligraphy of the broad nip pen with the sharpness of the scalpel knife.

3) Our brand uses the GT Sectra Regular and GT Sectra Regular Italic.

Our tagline, “What starts here changes the world”, uses the typeface Benton Sans Bold.

II. University Configurations
University Signature Types
An Overview

1) This chart shows the various signature types available for use at the University level. Each signature type (Primary, Formal, Informal and Tagline) has a horizontal and a stacked option.

2) One-color Pantone versions of all University level lockups are available for use. Artwork files are available for Pantone 159 (orange) and Pantone 432 (gray). The two color version is preferred, and 1-color should only be used for 1-color spot color printing when 2-color is not an option.

*Lockups are shown at reduced size here for demonstrative purposes only. When using logo artwork, they must adhere to the minimum size requirements.

*Lockups are shown at reduced size for demonstrative purposes only. When using logo artwork, they must adhere to the minimum size requirements.*
University Configurations
Primary Signature: Horizontal

1) Shown here is the University’s primary signature in a horizontal layout. The horizontal version is the preferred primary signature type and should be used rather than the stacked version when appropriate.

2) Do not manually type the Primary Signature. Always use the artwork files that are provided.
University Configurations
Primary Signature: Stacked

1) Shown here is the University’s Primary Signature, in a stacked layout. The stacked version may be used if the primary horizontal signature does not work well within a layout.

2) Do not manually type the Primary Signature. Always use the artwork files that are provided.
University Configurations
Formal Signature: Horizontal

1) Shown here is the University’s Formal Signatures in a horizontal lockup.

2) There is a horizontal version as well as a stacked version. Either version may be used, based on the discretion of the user.

3) Do not manually type the Formal Signature. Always use the artwork files that are provided.
University Configurations
Formal Signature: Stacked

1) Shown here is the University’s Formal Signature in a stacked lockup.

2) There is a horizontal version as well as a stacked version. Either version may be used, based on the discretion of the user.

3) Do not manually type the Formal Signature. Always use the artwork files that are provided.
University Configurations
Informal Signature: Horizontal

1) Shown here are the University’s Informal Signatures, in a horizontal version. The Informal Signatures do not carry the formal name underneath the Texas/Shield lockup.

2) The Informal Signatures should only be used for internal communication, unless otherwise approved by the university’s creative director.

3) Do not manually type the Informal Signature. Always use the artwork files that are provided.
University Configurations
Informal Signature: Stacked

1) Shown here is the University’s Informal Signatures, in a stacked version. The Informal Signatures do not carry the formal name underneath the Texas/Shield lockup.

2) The Informal Signatures should only be used for internal communication, unless otherwise approved by the university’s creative director.

3) Do not manually type the Informal Signature. Always use the artwork files that are provided.
University Configurations
Tagline Signature: Horizontal

1) “What Starts Here Changes The World”® is the official tagline of The University of Texas at Austin. People have come to expect that the university is a leader in changing the world, and maintaining the integrity of this tagline through consistent use reinforces our message.

2) The Tagline Signature is the lockup that presents our tagline with our logo. The tagline uses the typeface Benton Sans and is represented in our official secondary color, gray.

3) Do not manually type the Tagline Signature. Always use the artwork files that are provided.

One-color Pantone versions of the Tagline Signature are available for use. Artwork files are available for Pantone 159 (orange) and Pantone 432 (gray). These should only be used for 1-color spot color printing when 2-color is not an option.

Tagline Signature: Stacked

1) “What Starts Here Changes The World”® is the official tagline of The University of Texas at Austin. People have come to expect that the university is a leader in changing the world, and maintaining the integrity of this tagline through consistent use reinforces our message.

2) The Tagline Signature is the lockup that presents our tagline with our logo. The tagline uses the typeface Benton Sans and is represented in our official secondary color, gray.

3) Do not manually type the Tagline Signature. Always use the artwork files that are provided.

*One-color Pantone versions of the Tagline Signature are available for use. Artwork files are available for Pantone 159 (orange) and Pantone 432 (gray). These should only be used for 1-color spot color printing when 2-color is not an option.*
III. Other University Symbols
Other University Symbols
University Seal and Spirit Mark

1) The University of Texas at Austin seal is an important element in our visual identity. Its use is reserved for official communications from the Office of the President as well as business cards and stationery for all colleges, schools and units and official university documents, certificates, awards and plaques. The seal may not be used on any other materials, banners and signs, etc. without prior written approval from the Office of Trademark Licensing.

The seal should only appear in burnt orange, black, or white. Exceptions to this may include foil stamp for official documents. For inquiries on other exceptions, please go thru the university’s creative director.

2) The Longhorn Silhouette represents the spirit of the university and is one of the most widely recognized university marks in the world. The Office of Trademark Licensing must grant prior written approval for all uses of the Longhorn Silhouette.
IV. College, School, Unit Configurations
**College, School, Unit Configurations**

**Introduction**

1) The university wordmark should appear conspicuously on all college and departmental communications. Using the university wordmark with individual colleges, departments, administrative units or schools shows the relationship between them.

2) Logos for College, School, Units (CSUs) should follow a standardized and consistent visual hierarchy. This recommended signature supports The University of Texas at Austin's brand while providing a clear and strong unit or group identifier.

3) There are five types of signatures shown below: Primary, Branded, Informal Branded A, Informal Branded B, and Formal. The following pages will explain each version in greater detail and provide guidelines for their usage.

*Lockups are shown at reduced size here for demonstrative purposes only. When using logo artwork, they must adhere to the minimum size requirements.*

IV. College, School, Unit Configurations
CSU Configurations: College Level
Branded College Signature

1) The example here shows how the Branded Signatures are represented at the College Level.

2) The Branded Signature is made up of five parts: The shield; “Texas”; the College’s shorthand name; the formal University name; and the official college name.

3) Do not manually type the Branded College Signature. Always use the artwork files that are provided.

*Branded Signatures are reserved for the college level, however, a Department or Program may use the Branded Signature with prior approval from the college’s communications director or from Creative Services. The department or program name will need to meet specific criteria in order to be approved for the Branded Signature use.*
CSU Configurations: College Level
All Branded College Signatures

1) All colleges have Branded Colleges Signatures available for use.

Pages 24-28 show how each college’s Branded Signature may be presented should the new system be adopted by the college.

2) Use official versions of the Branded College Signatures without altering the design, colors or wording.

School of Information

School of Law
CSU Configurations: College Level
Informal Branded Signature: Type A

1) The example here shows how the Informal Branded Signatures Type A may be shown at the College level.

2) The Informal Branded Signature Type A is essentially the branded signature separated into two elements: 1) The shield with “Texas” and the College’s shorthand name, and 2) the official university and college name. These elements may be separated so to give a greater visual presence to the college name.

3) When using the Informal Branded Signature Type A, the accompanying official name must appear somewhere on the piece of communication it is being used for. The official name should be less prominent than the Informal Branded lockup.

4) Do not manually type the Informal Branded Signature. Always use the artwork files that are provided.

The Informal Branded Signatures may be shown without the shield only if approval is granted from Creative Services.

V. Vice Presidential Units
Vice Presidential Unit Configurations

Introduction

1) The university wordmark should appear conspicuously on all college and departmental communications. Using the university wordmark with individual colleges, departments, administrative units or schools shows the relationship between them.

2) Logos for VP Units, also referred to as logo signatures, should follow a standardized and consistent visual hierarchy. This recommended signature supports The University of Texas at Austin’s brand while providing a clear and strong unit or group identifier.

3) This document refers to two types of VP Units: External Facing and Internal Facing. External Facing VP Units are those that have direct communication with, and often a marketing role toward, the public. Examples include the Office of Admissions and Office of the Registrar.

Internal Facing VP Units are those that tend to not market to an outside office, like the Office of General Faculty or University Communications. Internal facing offices communicate to an internal audience.

Because they sometimes play a marketing/promotional role, the External Facing VP Units are allowed a Branded Office Signature.

4) There are five types of signatures shown below: Primary, Branded, Informal Branded A, Informal Branded B, and Formal. The following pages will explain each version in greater detail and provide guidelines for their usage.

Lockups are shown here at reduced size for demonstrative purposes only. When using logo artwork, they must adhere to the minimum size requirements.

1) Shown here are examples of how the Formal Signatures are represented at the External Facing VP Units Level.

2) The Formal Signature is made up of three parts: The shield; The formal University name; and the official office/unit name.

*One-color Pantone versions of the Formal Signature are available for use. Artwork files are available for Pantone 159 (orange) and Pantone 432 (gray). The two color version is preferred, and the one-color version should only be used for 1-color spot color printing when two colors is not an option.*

Summary of all Signature Types

1) Primary Signature
2) Branded College Signature
3) Informal Branded Signature: Type A
4) Informal Branded Signature: Type B
5) Formal Signature
VI. Social Media
Social Media
An Overview

1) The following pages include standards for social media that can help ensure a strong and consistent social media presence.

2) More information about social media goals and standards is available from University Communications. If you have questions about UT’s social media brand guidelines, contact University Communications at utsocial@utexas.edu.
Social Media
Avatars: Overview

1) A social media avatar is a personalized graphical illustration or image that represents a user.

2) There are three types of avatars that can be used for social media outlets.

3) **Shield Avatar.** The white shield on orange background is reserved for the University’s social media presence.

4) **Image Avatar.** Images may be used by the University, colleges, departments and offices. The imagery should be relevant to the entity.

5) **Lockup Avatar.** Colleges and Departments may use logo lockups for their avatars. Colleges may use the stacked primary logo, or a customized version of the branded lockup, as shown below. The orange background is reserved for college level.

   Departments and Programs may use a version of the branded lockup as shown below, only if the name works within the character space.

   The customized Lockup Avatars should only be used for application in social media.
Social Media
Avatars: University level

1) Shield Avatar: The white shield on an orange background may be used for the University’s avatar. This color combo is strictly reserved for the University level.

2) Image Avatar: An image that identifies the University may be used as an avatar (i.e. an architectural detail of the University Seal).
Social Media
Avatars: College level

1) A college level may use an Image or a Lockup for its avatar.

2) Image Avatar: An image that identifies the college may be used (i.e. an image of a college building on campus).

3) Lockup Avatar: A college may use the stacked primary logo, or a customized version of their branded lockup, as shown below. If using this version, the lockup must always be knocked out of an orange background.

The lockups may not display well at small sizes. For this reason, it may be best to use an image that embodies the college.
Social Media
Avatars: Department/Program level

1) A Department or Program may use an Image or a Lockup for its avatar.

2) Image Avatar: An image that identifies the department or college may be used.

3) Lockup Avatar: A Department or Program may use the University’s primary stacked lockup, or a customized version of their branded lockup if its name works within the character space, as shown below. If using this option, the lockup must always be orange on a white background.

The lockups may not display well at small sizes. For this reason, it may be best to use an image that embodies the Department or Program.

Option 1
Image Avatar

Option 2
Lockup Avatar
Social Media
Avatars: Offices

1) An office may use an Image as their social media avatar.

2) The example below shows an appropriate use of imagery for the Office level. An image of a campus landmark, for example, would work well.
VII. Contact Information
Contact Information

University Communications is responsible for managing The University of Texas at Austin brand, plays a coordinating role among the administration and academic offices and is the main resource for all issues relating to the university’s institutional brand.

It is suggested that each administrative office appoint an Identity coordinator to guide identity use and ensure that all standards in the identity guidelines are maintained. Coordinators are expected to monitor performance of the identity within their offices and to ensure consistency.
