## What Can I Learn in the SEED Program?

Here at UT Austin, we value our student employees! The SEED Program gives you an opportunity to enhance your skills, knowledge, and leadership potential so you can excel in the student workforce and in your future career.

### Just a few of the SEED workshop topics:

- Professionalism in the Workplace
- Workplace Ethics: What Would You Do?
- Managing Peers for Success
- Moving Through Conflict
- Customer Care
- Transferable Skills
- Moving Beyond Generational Differences
- Stress Management

See the SEED webpage for the full list!

## How do I participate?

The SEED Program is free! All you have to do to participate is register for SEED workshops and sign in when you attend. You'll find handy links for registering on the SEED Workshop Schedule webpage:  
<http://sites.utexas.edu/seed/workshops/>. Each workshop is offered twice a semester.

*SEED workshops are fun, interactive, and free!*

## How do I earn certification?

The SEED Program offers two levels of Student Employee Excellence Certification:

- Level 1: attend 6 workshops (two from Module 1 and one from each of the other Modules) and write a 2-page reflection
- Advanced: attend 4 more workshops, write a 2-page reflection, and complete a project that advances student employee training

In addition, you must have worked at least 240 hours in a student job to be certified.

But you can start attending workshops before then!

SEED workshops may also count towards the certification requirements of other programs.

*Moving Beyond Generational Differences workshop*

## See what SEED participants have to say!

"I have learned many skills that can be applicable, not only to my current position as a student employee, but to my career as well."

"The SEED Program did more than change how I work at my student job; it changed my entire perspective and view on life."

"I really enjoyed the flexibility of this program and the fact that we could create our own schedule, choosing the seminars that would be most fitting for our needs."

*"The SEED Program provides a solid foundation to be an outstanding employee in any field."*
