28. CONFERENCE PUBLICATIONS (208)

Five Point Exact Straight Line Mechanisms, D. Tesar and J. C. Wolford, Transactions of the Seventh Conference on Mechanisms, Purdue University, October 1962.

Constraint Coordination for Two Planar Motion States, by P.W. Eschenbach and D. Tesar, Proceedings of the Second Applied Mechanisms Conference, Oklahoma State University, Stillwater, OK, October 1971.

Cycloidal Dwell Linkage Design Charts Based on Four Infinitesimally Separated Positions, by A. Chaudhari and D. Tesar, Proceedings of the Second Applied Mechanisms Conference, Oklahoma State University, Stillwater, October 1971.

Cycloidal Dwell Linkage Design Charts Based on Four Multiply Separated Positions (Case PP-P-P), by D. Tesar and A. Chaudhari, ASME Paper No. 74-DET-61, 13th Mechanisms Conference, October 6-9, 1974.

A Software Framework For Manipulator Kinematics, Chetan Kapoor, Peter S. March And Delbert Tesar, IFTOMM 04, October 2004.

“Intelligence for A Full Architecture of Electromechanical Actuators,” G. Krishnamoorthy and D. Tesar, Proceedings, 10th International Conference On Smart Actuators and Drive Systems, ACT 2006, Bremen, Germany, June 14-16, 2006

Experimental Identification of Friction and Dynamic Coupling in a Dual Actuator Testbed, D. Rabindran and D. Tesar, GEM, June 2009.
