Describe the Independent Study below or in an attachment. ART 383 is a form of "contract" education wherein an agreement is made between an individual graduate student and a faculty member selected by the student. The agreement describes what work the student is to do during the semester - a particular medium to be explored, a certain aesthetic or conceptual direction to be investigated, etc. If the graduate student is taking an undergraduate Studio Art course, simply write the name and unique number of that course.

What will be submitted for grading? (The amount of work must be reasonable for the number of credit hours and must be clearly explained.) Leave this blank if you are taking an undergraduate Studio Art class.

How often and when will the student and faculty member meet to discuss the work? (Usually meetings are a minimum of once every other week for at least an hour.)
