

The 2013 International Conference on Aging in the Americas

HIGHLIGHTS

Demographics Of Aging In The Americas: How Should We Prepare For An Aging Population In Mexico And The U.S.A.?

SEPTEMBER 17-19, 2013

THE UNIVERSITY OF TEXAS AT AUSTIN

Conference Series on Aging in the Americas (CAA)

2013 International Conference on Aging in the Americas (ICAA)

The sixth installment of the Conference Series on Aging in the Americas (CAA) was held on September 17-19, 2013 at The University of Texas at Austin. This year's theme focused on demographics of aging in the Americas and specifically the question of *how should we prepare for an aging population in Mexico and the U.S.A.*? An important objective of the meeting was to create a consensus objective on key issues related to the changing demographics of Mexico and the United States and their impact on the health, economics, immigration and financial well-being of these two nations.

By now a large body of research points to a dramatic demographic transformation in Mexico. While Mexico's population is relatively young today, with a median age of 27, it will age rapidly in coming years and will grow to 25 million by the middle of this century. The number of older Latinos (65 years and over) in the United States are also expected to increase by more than six times in 2050 and number almost 18 million.

Since Mexico and the United States are swiftly becoming old both countries face problems of caring for the elderly and often frail and disabled populations.

In recognition of these challenges, over 100 participants, including more than 50 invited speakers, keynote lectures and emerging scholars addressed these issues in panel discussions, peer-reviewed posters, and a consensus building session. In addition to the presentations, the CAA sponsored a mentoring program for emerging scholars in minority aging with a special emphasis on Hispanic health. This consisted of the selection of exemplary posters for oral presentations, an awards reception, and opportunities to speak with leading researchers in the field during a one-on-one mentoring event, followed by a celebratory dinner.

CAA TEAM

Jacqueline Angel (left), Professor of Sociology and Public Affairs at The University of Texas at Austin and **Fernando Torres-Gil** (right), Professor of Social Welfare and Policy at the University of California, Los Angeles served as Co-organizers of the 2013 ICCA.

CAA Co-Investigators **William Vega** (right), Provost Professor and Executive Director of the USC Edward R. Roybal Institute on Aging, and **Kyriakos Markides** (left), Annie and John Gnitinger Professor of Aging Studies at the University of Texas Medical Branch at Galveston.

The CAA Team consists of an Advisory Group which was established to provide input from various leading experts in population issues, geriatric service provision, and health care policy and advocacy with respect to Hispanic ethnicity. This committee plays an integral part in planning upcoming conferences.

Maria Aranda, University of Southern California
 Elena Bastida, Florida International University
 Eileen Crimmins, University of Southern California
 Hector Gonzáles, University of Michigan
 Mary Haan, University of California, San Francisco
 Mark Hayward, The University of Texas at Austin
 Terrence Hill, The University of Utah
 Alberto Palloni, University of Wisconsin, Madison
 Nelly Salgado de Snyder, National Mexican Institute of Public Health
 Rebeca Wong, University of Texas Medical Branch, Galveston

Keynote Lectures

Rubén Rumbaut

University of California, Irvine

Takes Two to Tango: Reflections on the Political Demography of Mexican Migration, Mexican-American Aging, and Ethnic Inequalities

Steve Murdock

Rice University

The Latino Future is the Future of the United States But What Kind of Future Will It Be?

Jorge Chapa

The University of Illinois, Champaign

Apple Pie, Enchiladas and the Age-Race Shift: Young and Aging Latinos in an Aging North America

Invited Speakers and Discussants

Jorge Bravo, James Smith, Ronald Angel, Marie Mora, Emma Aguila, Chenoa Flippen, Maria Aranda, Flavia Andrade, Maria Elena Aguilar Aldrete, Erick Guerreo, Ladson Hinton, Luis Miguel Gutiérrez Robledo, Rogelio Saenz, Veronica Montes de Oca, Kyriakos Markides, Silvia Mejia, Peter Ward, Georgiana Bostean, Carlos Díaz-Venegas, Sunshine Rote, Phillip Castro, Tyson Brown, Steve Wallace, Shelton Brown, Zachary Gassoumis, Dave Warner, Gregory Weeks, Fernando Torres-Gil, Bryan Roberts, David Leal

Peter Ward

Robert Hutchings, LBJ School, gave opening remarks on the first full day of scientific panels and discussion.

Mauricio Garnier-Villarreal

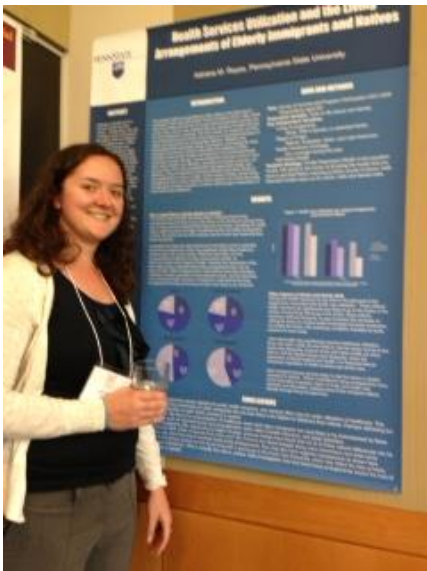

Emerging Scholar Poster Session

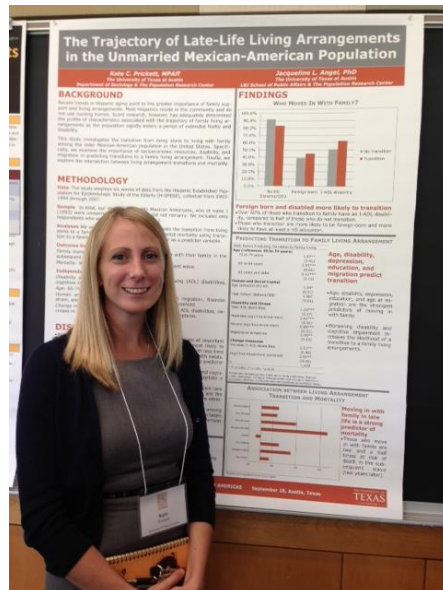

Flavia Andrade (Left), University of Illinois Champaign and **Mauricio Garnier-Villareal** (Right), University of Kansas

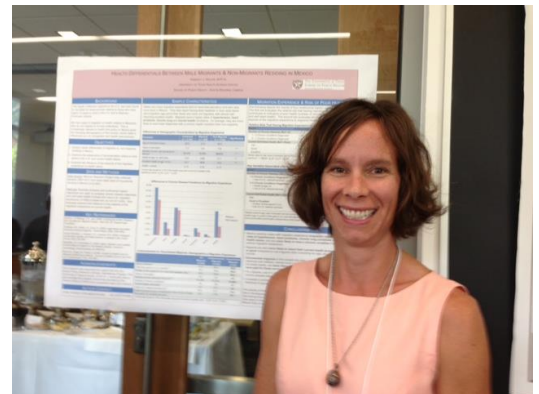

Stipica Mudraiya (Left), University of Southern California and **Quashie, Nekehia** (Right), The University of Utah

Adriana Reyes,
The Pennsylvania
State University

Kate Pickett,
The University of Texas at Austin

Kimberly Wilson,
U.T. School of Public Health
Austin Regional Campus

Consensus Building Session

Selected Findings- Directions in Future Research

- ◆ Examine influences of health on labor market behavior and retirement security at older ages among Hispanics in the U.S. and Mexico.
- ◆ Hispanic aging from a transnational perspective with explicit attention to gender influences on family and household resources.
- ◆ Comparative aging studies of risk and protective factors affecting mental health in Mexico and the U.S.
- ◆ Mixed-method investigations of temporal patterns of caregiving and effect on support systems.
- ◆ Interdisciplinary teamwork of long-term care as a phenomenon that goes beyond static notions of Hispanic ethnicity.
- ◆ Qualitative approaches to understand the articulation between the role of governmental and non-state actors in health and social service provision to elderly Hispanics.

“Planning and policymaking for the aging and well-being of the rapidly growing Mexican-American population need to be contextualized within the tangled “tango” of U.S.-Mexico interconnectedness, specifically with respect to international migration flows, the putative demographic “fit” of U.S.-Mexico economic and population needs, the incorporation of immigrants and their descendants, and the political contexts which mold it.” *Rubén Rumbaut, 2013 ICAA, September 19, 2013.*

2013 ICAA Participants

Maria Aranda and Bill Vega

**Kyriakos Markides, Jacqui Angel,
Sunshine Rote, Steve Wallace**

**Marc Garcia, Rogelio Saenz,
Veronica Montes de Oca, Phillip
Cantu, and Kyriakos Markides**

**Terrence Hill, Tyson Brown, and
John Taylor**

**Rosalba Ojeda (left), Consul General
of Mexico in Austin, 2013 ICAA
Distinguished Honoree with Victoria
Rodriguez.**

Jalonick Centennial Lectureship

University (UT) Co-op

About the CAA Logo

Since times before memory, la mariposa monarca (or monarch butterfly) journeys through the Americas to sustain its life. In cool, clear skies of October, indigenous people reverently welcome returning souls on wings aloft, reuniting in central Mexican forests and valleys. So the cycle continues from beginnings unknown to no ends...

The Aging in the Americas Conference selected la monarca to symbolize the threads that unite us across the Americas in understanding and reverently preserving the dignity and integrity of life's cycle that knows no beginnings or ends. Roberto Salas was commissioned by the Conference to create la monarca. La monarca was drawn from pre-Columbian images and images from industrialized and post-industrialized Americas. Salas is a Chicano artist who received his Masters in Fine Art from the University of New Mexico. He is Director of the art galleries El Taller Cruzando Traques, which is located in San Diego, California and Studio Maguey, in El Paso, Texas.
