<td></td>
<td></td>
<td></td>
</tr>
<tr>
<td>1:00 pm – 2:30 pm</td>
<td><strong>A Primer on Opioids and Medications for Opioid Use Disorder (MOUD)</strong></td>
<td>Amanda Simonton, MSN, RN, PMHNP-BC</td>
<td>Explain the pharmacology, efficacy, safety, and clinical use of opioid agonists for pain management.</td>
<td>0067-0000-20-038-L08-P</td>
</tr>
<tr>
<td></td>
<td></td>
<td>David Walsh, MSN, RN, PMHNP-BC</td>
<td>Explain the pharmacology, efficacy, safety, and clinical use of opioid agonists, partial agonists, and antagonists for the treatment of opioid use disorder.</td>
<td></td>
</tr>
<tr>
<td>2:30 pm – 3:30 pm</td>
<td><strong>A Community-Based Collaboration to Increase OUD Treatment After Non-Fatal Overdose</strong></td>
<td>Andrea Yatsco</td>
<td>Describe the development and implementation of a novel collaboration between emergency department clinicians and emergency medical services to provide evidence-based medication treatment and follow-up for people with OUD who experience a non-fatal overdose.</td>
<td>0067-0000-20-039-L08-P</td>
</tr>
<tr>
<td>3:30 pm – 4:00 pm</td>
<td><strong>Developing and Implementing an Opioid Stewardship Program (#)</strong></td>
<td>Doug Oyler, PharmD</td>
<td>Describe the development, implementation, and evaluation of an opioid stewardship program in a large academic health center. Identify strategies to improve safe opioid use within health systems. Develop collaborative strategies with other state and local entities to improve opioid use throughout their community.</td>
<td>0067-0000-20-040-L08-P</td>
</tr>
<tr>
<td>4:00 pm – 5:00 pm</td>
<td><strong>Non-Opioid Alternatives for Pain Management in the Hospital Setting (+)</strong></td>
<td>Doug Oyler, PharmD</td>
<td>Examine pain management treatment strategies that incorporate non-opioid and opioid pain relievers. Discuss non-opioid alternatives for pain management in the hospital setting.</td>
<td>0067-0000-20-041-L08-P</td>
</tr>
<tr>
<td>5:00 pm – 6:00 pm</td>
<td><strong>Networking Reception</strong></td>

</tbody>
</table>
| 8:00 am – 9:00 am | **The Addiction Consult Team: An Innovative Consult Service for Substance Use Disorders**  
                   | Gene Lambert, MD, MBA, FACP  
                   | Staff physician, Hospital Medicine  
                   | Department of Medicine  
                   | Staff consultant, Addiction Consult Team  
                   | Substance Use Disorders Strategic Initiative  
                   | Massachusetts General Hospital  
                   | • Describe the development and implementation of a novel interprofessional addiction consult service to provide evidence-based treatment for patients with substance use disorders.  
                   | UAN: 0067-0000-20-042-L08-P |
| 9:00 am – 10:00 am | **The B-Team: A Hospital-Driven Model**  
                   | Richard Bottner, PA-C  
                   | Kirsten Mason, PharmD, BCPS  
                   | Division of Hospital Medicine  
                   | Clinical Pharmacy Manager  
                   | Dell Seton Medical Center  
                   | Seton Healthcare Family  
                   | Dell Medical School at UT Austin  
                   | • Describe the development and implementation of an OUD treatment service led by internal medicine clinicians in collaboration with a broad range of key team members.  
                   | • Identify how to support or create similar services by engaging a variety of professionals at their institution.  
                   | UAN: 0067-0000-20-043-L08-P |
| 10:00 am – 10:20 am | Break/Exhibits                                                           |
| 10:20 am – 11:20 am | **Managing Medications for Opioid Use Disorder During Hospitalization**  
                   | Amanda Simonton, MSN, RN, PMHNP-BC  
                   | Kirsten Mason, PharmD, BCPS  
                   | PhD Candidate  
                   | Clinical Pharmacy Manager  
                   | School of Nursing, UT Austin  
                   | Seton Healthcare Family  
                   | Psychiatric-Mental Health Nurse Practitioner  
                   | CARMahealth  
                   | • Explain case examples to demystify management of FDA-approved medications for opioid use disorder in various inpatient treatment scenarios.  
                   | • Identify ways to effectively navigate pain management, peri-operative care, and other potentially complicated situations using case studies.  
                   | UAN: 0067-0000-20-044-L08-P |
| 11:20 am – 12:20 pm | **Preventing Opioid-Related Harm by Distributing Naloxone and Providing Overdose Response Education**  
                   | Lucas G. Hill, PharmD, BCPS, BCACP  
                   | Kirsten Mason, PharmD, BCPS  
                   | Clinical Assistant Professor  
                   | Clinical Pharmacy Manager  
                   | The University of Texas at Austin College of Pharmacy  
                   | Seton Healthcare Family  
                   | • Identify patients at risk for opioid-related adverse effects and overdose.  
                   | • Apply skills and tools necessary to intervene effectively by increasing access to naloxone and providing appropriate education.  
<pre><code>               | UAN: 0067-0000-20-045-L08-P |

<tr>
<th>Time</th>
<th>Breakout Sessions</th>
<th>Lunch</th>
<th>Networking Reception</th>
</tr>
</thead>
</table>
| 12:20 pm – 1:10 pm | **Acute Stroke Update**  
Kyllie Ryan-Hummel, PharmD, BCCCP  
Clinical Pharmacist  
Trauma/Neuroscience Intensive Care  
University Health System  
• TBD  
*UAN: 0067-0000-20-046-L08-P**  
  
X-Waiver Training *  
Richard Bottner, PA-C  
Dell Seton Medical Center  
• Discuss prescribing buprenorphine for outpatient opioid dependence.  
• Assess opioid dependence/opioid use disorder and implement appropriate and safe medication assisted treatment.  
• Identify treatment options and recommendations for concurrent substance use disorders.  
  
Caring for Hospitalized Patients with Dementia  
Lisa Geshell, MSN, RN,  
PhD Candidate  
UT School of Nursing  
• State the stress of hospitalization on persons with dementia and their nurses.  
• Differentiate between delirium and dementia.  
• Describe methods to prevent delirium in the hospital environment.  
• List medication classes to avoid among persons with dementia.  
• Demonstrate the discussion of advanced care planning with patients and their families.  
  
1:10 pm – 2:10 pm |  
**Break/Exhibits**  
  
2:10 pm – 3:10 pm | **5 Things Every Critical Care Pharmacist Should Know**  
Mitchell Daley, PharmD, FCCM, BCCP  
Market Clinical Pharmacy Specialist  
Seton Healthcare Family  
*And*  
Peter Nguyen, PharmD  
Clinical Pharmacy Specialist  
Seton Healthcare Family  
• Objectives TBD  
*UAN: 0067-0000-20-047-L04-P**  
  
X-Waiver Training *  
Richard Bottner, PA-C  
Dell Seton Medical Center  
• See above.  
  
Implicit Bias  
Danica Sumpter, PhD, RN  
UT School of Nursing  
• Explain implicit bias.  
• Examine the potential impact of implicit bias on patient care.  
  
3:10 pm – 3:30 pm |  
**Break/Exhibits**  
  
3:30 pm – 4:45 pm | **2020 New Drug Update**  
Laurajo Ryan, PharmD, MSc, BCPS, CDE  
Clinical Associate Professor  
UT College of Pharmacy  
*And*  
Bryson Duhon, PharmD, BCPS  
Clinical Assistant Professor/Assistant Dean for Students  
UT College of Pharmacy  
• Discuss basic pharmacology of new drugs presented and how it relates to therapeutic and adverse effects.  
*UAN: 0067-0000-20-048-L01-P**  
  
X-Waiver Training *  
Richard Bottner, PA-C  
Dell Seton Medical Center  
• See above.  
  
Stigma and Substance Use Disorder  
David Walsh, MSN, RN, PMHNP-BC  
• Identify provider-side, patient-side, and community bias and stigma.  
• Examine the impact of language on the therapeutic relationship.  
• Discuss the relationships and differences between addiction science and traditional 12-step modalities.  
  
4:45 pm – 5:45 pm |  
**Adjourned**  
  
6:00 pm |  
**Networking Reception**  
  
**Schedule subject to change**  
**UT Continuing Pharmacy Education**
| Time          | Event                                                                 | Speaker(s)                                      | Details                                                                                                                                                                      | UAN:       |
|--------------|----------------------------------------------------------------------|------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------                                         |           |
| 7:30 am – 8:00 am | **Breakfast**                                                          |                                                 |                                                                                                                                  |           |
| 8:00 am – 9:00 am | **Harm Reduction Strategies for Hospital-Based Clinicians**         | Cate Graziani, Claire Zagorski, MS, LP       | • Describe how to engage with patients in a productive manner, who are at risk for substance-related harm, by embracing harm reduction strategies.  
• Identify evidence-based solutions to address specific avoidable consequences of substance use, such as injection-related infections and fatal overdoses. | 0067-0000-20-050-L08-P |
| 9:00 am – 10:00 am | **Navigating Treatment Complexities for Patients with Injection-Associated Endocarditis** | Thomas Brothers, MD CISAM, Claire Zagorski, MS, LP | • Examine case examples to explore clinical challenges and ethical considerations related to the management of patients with injection-associated endocarditis.  
• Describe an ideal model for team-based care of infective endocarditis. | 0067-0000-20-051-L01-P |
| 10:00 am – 10:20 am | **Break**                                                             |                                                 |                                                                                                                                  |           |
| 10:20 am – 11:20 am | **Managing Common Injection-Related Infections**                    | Elizabeth Hand, PharmD, BCIDP                  | • Review the appropriate management of a variety of common skin, soft tissue, bone, and vascular infections associated with injection drug use.  
• Identify optimal evidence-based treatment of these infectious complications in hospital practice. | 0067-0000-20-052-L01-P |
| 11:20 am – 12:20 pm | **Antimicrobial Stewardship: Tips for the Front-line Clinician**     | Anita Rahman, PharmD, BCPS                    | • Review antimicrobial stewardship tips and tools that support frontline hospital clinicians. | 0067-0000-20-053-L01-P |
| 12:20 pm – 1:10 pm | **Box Lunch Pick-Up / Working Box Lunch**                            |                                                 |                                                                                                                                  |           |
| 1:10 pm – 2:10 pm | **Sterile Compounding Update – Part 1 (‡)**                         | Speaker TBD                                    | • TBD.                                                                                                                          | 0067-0000-20-054-L07-P |
| 2:10 pm – 3:10 pm | **Sterile Compounding Update – Part 2 (‡)**                         | Speaker TBD                                    | • TBD.                                                                                                                          |           |
| 3:10 pm       | **Seminar Concludes**                                                 |                                                 |                                                                                                                                  |           |

Sterile Compounding Credit

The University of Texas at Austin College of Pharmacy is accredited by the Accreditation Council for Pharmacy Education as a provider of continuing pharmacy education.

[‡] Counts towards NEW TSBP CE requirement for Pain Management  
[#] Counts towards NEW TSBP CE requirement for Prescribing & Monitoring Controlled Substances  
[*] Counts towards TX Pharmacy Law CE requirement  
[‡] Counts towards TSBP Sterile Compounding CE requirement  
* Pre-registration required; not ACPE-accredited for pharmacy CE credits

** Schedule subject to change
