</table>
| 8:30 AM| **Keynote:** The Value of Pharmacy: Leading the Health System Pharmacy Practice Landscape  
Lynn Eschenbacher, PharmD, MBA, FASHP  
Class of 2000 University of Texas College of Pharmacy | • Describe the current health system landscape and role of pharmacy across the continuum of care  
• Identify ways pharmacy can provide value across the health system  
• Create a plan for the future of pharmacy by leading with innovation and methods to positively impact patient care |
| 9:30 AM| **Transitions of Care from Inpatient to Outpatient Settings**  
Kirk Evoy, PharmD, BCACP, BC-ADM, CTTS  
Clinical Assistant Professor  
College of Pharmacy, The University of Texas at Austin  
Adjoint Assistant Professor, UT Health SA School of Medicine  
Heather Dobie, PharmD, BCACP  
Clinical Specialist, Ambulatory Transitions of Care  
UT Health SA School of Medicine | • Identify types of errors that can occur as patients transition from inpatient to outpatient settings.  
• Describe the pharmacist’s role in transitions of care to ensure optimal medication outcomes.  
• Discuss quality, financial, and patient care outcomes that may be influenced by pharmacist activities during transitions of care. |
| 10:45 AM| **Bad Bugs and Now Several Drugs: Understanding New Gram-Negative Agents in the Hospital**  
Emmy Gibbons, PharmD, AAHIVP  
Clinical Specialist, Infectious Disease  
University Health San Antonio | • Describe gram negative resistance trends and epidemiology in the United States for Enterobacterales, Pseudomonas aeruginosa and Acinetobacter baumannii  
• Recall the different resistance mechanisms for gram negative pathogens and their implications for the use of new agents  
• Distinguish new gram negative agents from each other with regard to clinical utility and unique features  
• Utilize patient case to determine which agent(s) may be suited for hospital use |
| 11:45 AM| **Guideline Update: Takeaway Points from the International Guidelines for Management of Sepsis and Septic Shock 2021**  
Luke Smedley, PharmD, BCACP  
Clinical Specialist for Medical / Cardiothoracic Intensive Care  
University Health San Antonio | • Discuss the prevalence and implications/consequences of sepsis in the hospital setting  
• Recognize concepts and issues specifically addressed in the new sepsis guidelines  
• Describe key concepts of sepsis management and where pharmacists can play a role |
| 12:45 PM| Lunch Break | |
| 1:45 PM| **Latest Updates in COVID-19 Treatments**  
Elizabeth Oates Hand, PharmD, BCIDP  
Manager, Clinical and Residency Programs  
PGY1 Residency Program Director  
University Health San Antonio | • Describe the most recent guidelines for the treatment of COVID-19 in hospitalized and ambulatory patients.  
• Discuss the differences in available treatment options as well as limitations.  
• Critically evaluate the evidence for the recommended treatment options provided in the guidelines.  
• List medications that are not recommended for treatment of COVID-19 due to a lack of established efficacy. |
| 2:45 PM| **Pharmacist Role in Inpatient Palliative Care**  
Shannon Rice, PharmD, BCGP  
Clinical Assistant Professor  
University of Texas at Tyler Fisch College of Pharmacy | • Compare and contrast the services provided by palliative and hospice care.  
• Describe the clinical pharmacist’s role within the inpatient palliative consult service.  
• Identify clinical and economic outcomes of including a clinical pharmacist on the inpatient palliative consult service. |
| 4:00 PM| **Human Trafficking – Pharmacy Perspective**  
Kerrl Taylor, M.S., ccc-slp  
Executive Director at Unbound Houston  
Claire A. Latiolais, PharmD, M.S.  
Clinical Assistant Professor for Pharmacy Practice  
The University of Texas at Austin College of Pharmacy  
Sarah Kubas, Pharm.D.  
Clinical Assistant Professor of Pharmacotherapy  
The University of Texas at Austin College of Pharmacy | • Describe different types of human trafficking and their local, statewide and international prevalence  
• Identify potential signs of human trafficking in victims who present for care in a medical setting  
• Discuss immediate healthcare needs of identified victims and develop ability for trauma-informed response  
• Describe available resources for victims service and aftercare  

This activity may be counted as one hour of CPE for human trafficking requirement |
| 5:30 PM| Reception & Pharmacy Heroes Celebration! | |
## Day 2: LIVE In-Person & Live Virtual Broadcast • Saturday, June 11, 2022

</thead>
<tbody>
<tr>
<td>9:00 AM</td>
<td>HIV Management for the Hospital Pharmacist</td>
<td>Dustin Rose, PharmD&lt;br&gt;Infection Diseases Clinical Pharmacist&lt;br&gt;Dell Seton Medical Center at The University of Texas at Austin</td>
<td>Discuss recent changes in HIV management care&lt;br&gt;Discuss common issues with HIV care for patients entering the hospital setting</td>
</tr>
<tr>
<td>10:00 AM</td>
<td>New Drug Update</td>
<td>Laurajo Ryan, PharmD, MSc, BCPS, CDE&lt;br&gt;Justin Pedigo, Pharm.D., BCPS&lt;br&gt;The University of Texas at Austin College of Pharmacy</td>
<td>Discuss the basic pharmacology of the new drugs presented and how the pharmacologic actions related to both therapeutic and adverse effects</td>
</tr>
<tr>
<td>11:15 AM</td>
<td>Law - Texas Pharmacy Law Update – Hospital Focus</td>
<td>Tim Tucker, PharmD&lt;br&gt;Executive Director and Secretary&lt;br&gt;Texas State Board of Pharmacy</td>
<td>Cite recent changes in pharmacy law and rule and their impact on daily hospital pharmacy practice&lt;br&gt;Discuss impact of the COVID-19 pandemic on pharmacy practice rules and procedures&lt;br&gt;&lt;em&gt;This module may be counted as one hour of CE for TSPB Law Requirement&lt;/em&gt;</td>
</tr>
<tr>
<td>12:15 PM</td>
<td>Lunch Break</td>
<td></td>
<td></td>
</tr>
<tr>
<td>1:00 PM</td>
<td>Focus on Nutrition Support – Parenteral Nutrition with Safety Implications</td>
<td>Todd W. Canada, PharmD, BCNSP, BCACC, FASHP, FTSHP&lt;br&gt;Regional Director, Galveston-Houston Regional&lt;br&gt;Clinical Assistant Professor&lt;br&gt;University of Texas MD Anderson</td>
<td>Design parenteral nutrition (PN) regimens in patients with various nutritional needs.&lt;br&gt;Identify common PN-related errors with a focus on the PN use process.&lt;br&gt;Review available ASPEN recommendations and resources for safe PN use.&lt;br&gt;Discuss action items to promote and implement PN safety recommendations.</td>
</tr>
<tr>
<td>2:15 PM</td>
<td>Preceptor – Communication Skills in the Workplace</td>
<td>Nathan D. Pope, PharmD, BCACP&lt;br&gt;Assistant Dean for Experiential Education / Clinical Associate Professor, UT Austin College of Pharmacy&lt;br&gt;Glen E. Baumgart, PhD&lt;br&gt;Director for Continuing Professional Development&lt;br&gt;UT Austin College of Pharmacy</td>
<td>Discuss common communication difficulties between preceptor and student as well as between pharmacy staff&lt;br&gt;Describe best practices in difficult conversations and critical feedback&lt;br&gt;&lt;em&gt;This activity may be counted as one hour of CPE for preceptor credit&lt;/em&gt;</td>
</tr>
<tr>
<td>3:15 PM</td>
<td>Sterile Compounding - Calculations: When Good Intentions are not Enough</td>
<td>Holli Temple, PharmD&lt;br&gt;Clinical Associate Professor of Pharmacy Practice&lt;br&gt;The University of Texas at Austin College of Pharmacy</td>
<td>Review select drug calculations&lt;br&gt;Calculate medication doses and volumes given medication orders&lt;br&gt;Illustrate calculation errors associated with said medication orders&lt;br&gt;Discuss methods to prevent and/or catch calculation errors&lt;br&gt;&lt;em&gt;This activity may be counted as one hour of CPE for sterile compounding maintenance&lt;/em&gt;</td>
</tr>
</tbody>
</table>

2022 HPS Adjourns • Thank You Pharmacy Heroes!
| 1.00 CPE On Demand | Sterile Compounding - Is 2021 the ONE? USP <797> Updates | - Discuss proposed revisions to USP <797>  
- Compare and contrast USP <797> 2008, 2019, and 2021  
*This activity may be counted as one hour of CPE for sterile compounding maintenance*

| 1.25 CPE On Demand | Pain Management - Pain Stewardship & The Hospital Pharmacist | - Describe the current state of the opioid overdose epidemic  
- Identify pain stewardship strategies that pharmacists can use to improve the quality of care that patients receive for both pain and substance use disorder.  
- Articulate how you as a practitioner can incorporate these strategies into your practice/health system as a hospital pharmacist.

| 1.00 CPE On Demand | Pharmacist’s Role in Surgical Procedures- Dispel Myths, Best Practice, and Lifesaving Safety Processes | - Discuss pharmacists role in surgical procedures  
- Discuss common errors and misunderstandings that impact procedures  
- Discuss systems and approaches to lower errors and increase safety

| 1.00 CPE On Demand | Preceptor – Trauma-Informed Practice: Evolving from "What's Wrong" to "What's Happened" | - Identify the types of trauma and the prevalence of trauma in the general population  
- Describe how trauma impacts individuals physiologically, psychologically, and emotionally  
- Recognize trauma response and indicators in patients, co-workers. And students in the healthcare setting  
- Demonstrate trauma-informed practice responses, reporting, and adaptations for accommodating trauma and trauma response  
*This activity may be counted as one hour of CPE for preceptor credit*

| 1.00 CPE On Demand | Opioid - Analysis of Drug Diversion | - Describe drugs involved in diversion and the impact on the opioid crisis  
- Discuss how to identify potential prescribing and diversion red flags and action steps regarding suspicious activities

| 1.00 CPE On Demand | Mental Health - Reducing Suicide Among Youth, Their Families, Staff and Communities | - Discuss how preventative suicide screening models can be used to identify at-risk individuals and establish care plans that reduce suicide while allocating resources effectively.  
- Utilize a systemic best-practice measurement, the C-SSRS, to identify suicidal ideation and behavior to improve risk identification and safety monitoring.  
- Demonstrate how the C-SSRS enables more streamlined triage, provides liability protection and facilitates care delivery to those at highest risk.

| 1.00 CPE On Demand | Mental Health - Appropriate Use of Complementary and Alternative Medical CAM for Psychiatric Disorders | - Discuss often used complementary and alternative medicines (CAM) often used in psychiatric treatments  
- Review evidence to evaluate agents that may be beneficial vs no benefit  
- Discuss potential ethical issues related to use of CAM in psychiatric treatments
