 - k) Y2Q: results came back in. Overall, doing really great. Nationally, 28% are extremely satisfied with medical education. At Dell Med, 44%. Probably a little less sleep and a little more burnout. Remember, this was in comparison to students who are still in pre-clinical.

- 9) Brooke: reached out to Beth about shelf scores
 - a) Word-for-word from Beth Nelson:

"At the Healthcare Delivery subcommittee today we discussed releasing NBME exam score prior to the release of the full clerkship grade. There was a lively discussion of the pros/cons and the final decision was to report out a complete grade to students at the 4 week mark unless a student had failed the NBME.

Some of the reasons included falsely setting hopes for honors in students that might be honors eligible but whose clinical assessments or other don't support honors, making the numeric NBME have greater perceived value when all of the grade components are important."

b) It has been decided. Will get them at the 4th week.b
