PANEL 2: ENERGY STORAGE

Competitive Markets And Policy Frameworks That Encourage Flexibility

Suzanne L. Bertin

Managing Director, TAEBA

UT Energy Week –February 2019

What is Advanced Energy?

Advanced energy encompasses a broad range of products and services that constitute the best available technologies for meeting energy needs today and tomorrow. Among these are **energy efficiency, demand response, energy storage, natural gas electric generation, solar, wind, hydro, nuclear, electric vehicles, biofuels and smart grid.**

It's all the innovations that make the energy we use more secure, clean, reliable and affordable.

TAEBA Is The Business Voice Of Advanced Energy In Texas
