

# Resources for Texas Sexual Assault Survivors

Inventory and Survey Findings on Services, Gaps, and Accessibility

## Appendix F: Supplemental Tables

The data were analyzed by service provider type. Appendix F: Supplemental Tables provides a detailed and nuanced breakdown of data, including raw numbers and percentages.

See [full report](#) for additional information. This Appendix is found on page 102 of the report.

NOVEMBER · 2020

**Lara O’Toole**, LMSW  
Editor

**G. Sophia Zegarra**  
Undergraduate Research Assistant

## APPENDIX F: SUPPLEMENTAL TABLES

The following links provide access to the supplemental tables with detailed data. The files themselves are too large to include in this document.

Summary tables organized by provider type: <https://utexas.box.com/v/Appendix-F-Provider-Summary>

- Categories of services in which at least one service was provided (baseline availability).
- The degree to which at least one service in a service category was rated by providers as “completely” meeting survivor needs, shown in percentage form.
- The degree to which participants report that at least one service in a service category has been available at normal or altered levels during the COVID-19 pandemic.

Detailed tables organized by provider type: <https://utexas.box.com/v/Appendix-F-Provider-Detail>

- Baseline availability for each individual service.
- Whether a service was provided directly, by referral, or not at all, for each individual service.
- Degree to which survey participants rate survivors’ need for a service to be met or unmet, for each individual service.
- COVID-19 impact on service delivery for each individual service.

Summary tables organized by region: <https://utexas.box.com/v/Appendix-F-Region-Summary>

- The degree to which participants report providing a service (baseline availability) for each service category.
- Services that were provided directly, by referral, or not at all.
- Complete respondent ratings of the degree to which needs for specific services have been met.
- Complete respondent ratings of the degree to which specific services were available or paused/changed during the COVID-19 pandemic.

Detailed tables organized by region: <https://utexas.box.com/v/Appendix-F-Region-Detail>

- Baseline availability for each individual service.
- Whether a service was provided directly, by referral, or not at all, for each individual service.
- Degree to which participants rate survivors’ need for a service to be met or unmet, for each individual service.
- COVID-19 impact on service delivery for each individual service.
