### SEE Cycle

The cycle begins with **promoting** employee engagement through SEE participation.

**Setup** allows for survey customization specific to your organization.

**Survey** administration offers real-time progress monitoring and participant management.

**Reporting** provides the data in a clean and understandable fashion.

**Next Steps** are essential in providing support for questions, follow-up, and improvement strategies.

### Benefits

Key benefits of engagement assessments include:

-  Enhancing Employee **Retention**
-  Improving **Quality** of Services
-  Promoting **Accountability**
-  Measuring **Engagement**
-  Identifying Areas for **Development/Concern**
-  Fostering a Sense of **Belonging**
-  **Benchmarking** Comparisons

### Framework

The SEE framework has 48 primary items, capturing the essential workplace features with 12 constructs.

### Index Measures
