

# CUSTOMIZATION

The Survey of Employee Engagement (SEE) can be customized to meet your organization's needs while still providing valuable comparison data, which are both reliable and statistically valid. We understand that every organization is unique, therefore we provide flexibility through customization options.

## Create Breakout Reports

Breakout Reports are designed to solicit information about employees' roles within the organization. The breakouts are a detailed analysis isolating certain areas, functions, or other distinctions customized to your organization.

**Display Custom Logos**  
Online and on Reports

**Attach Custom Messages and Videos**

**Accessible, Spanish/English/Hardcopy**

**Customize Benchmarks**

Compare your employees' scores for multiple benchmark categories such as: missions, overtime, year, size, (your) breakouts, region, and overall workforce.
