## Victoria Li

609-616-2888 | vfl229@utexas.edu

August 2023 - May 2027

## Education

## UT Austin

- Chemical Engineering Major
- Materials Science Minor
- Principles of Computing Certificate

## Skills

**Technical:** Laser Cutting, Milling, Lathing, 3D-Printing Design, Soldering, **Other**: Solidworks CAD, FEMAP, Python, C, Video-editing, Sketching, German, Chinese

Work Experience and Projects

| University of Texas at Austin         Composites       September 2023 - April 2024         - Active research and testing in various material for vacuum bladder use for optimal surface finish         - Design, modeling and simulation training in CAD and FEMAP         Data Acquisition       September 2024 - Present         - Simulating in PyChrono to model and relay the car's information to other members during test drives         - Using CAN lines to connect and synthesize information from various sensors in an efficient manner         Organic Chemistry LA       August 2024 - Present |

| Organic Chemistry LA August 2024 - Present  |
|   |
| University of Texas at Austin Austin, TX  |
| - Patrol class times to answer questions, demonstrate models and explain concepts   |
| - Assist in review sessions and guide students through synthesis problems   |
| Neuroscience Book Publishing May 2019 - June 2022   |
| Neurosensory Research Group Plainsboro, NJ  |
| - Wrote and published easily comprehensible neuroscience books with retired Purdue Professor Dr. Pidgeon  |
| - Credited author/illustrator on three books about Social Behaviors, Somatosensory, and Olfactory systems   |
| Nonprofit Legal Director and Teacher October 2020 - Present   |
| ScioVirtual - <u>sciovirtual.org</u> Remote   |
| - Handled founding documents, 501(c)3, PVSA, and contractor salaries (~10k per year)  |
| - Produced asynchronous learning content and practice questions at practice.sciovirtual   |
| UT Austin Shipping and Receiving September 2023 - May 2024  |
| McKetta Department Austin, TX   |
| - Categorizing, logging and correctly handling incoming, potentially hazardous, packages  |
| - Authorized payment processing of laboratory orders/corrections on monetary amount issues  |
| Science Olympiad  |
| West Windsor Plainsboro High School North September 2018 - May 2023   |
| Captain   |
| - Bronze in Cryptograms and WIDI at Nationals   |
| - Created team rosters, lead practices, held and guided new members in lab events   |
| ATX Science Olympiad Inventory Coordinator August 2023 - Present  |
| - In charge of gathering, cataloging, and storing all necessary materials for hosted competitions   |

- Wrote and proctored test for events in chemistry and cryptograms
