

Peers in Research with Prosumers International

People find recovery all the time on accident. It is time to find recovery on purpose.

The Peers in Research project evaluated the outcomes of members who receive peer services at Consumer Operated Service Providers (COSP) in Texas.

Peers gathered member stories and asked them to what extent they believe Prosumers International's services are recovery oriented

Statements from our members:

“I want to be in a position to make a significant difference in the lives of others like Prosumers made in my life.”

“Prosumers empowered me to make goals, believe in myself, help others and to create the life that I love!”

“Prosumers has connected me with others who live a life in recovery. Through Prosumers, I have been able to build a support system of like-minded people.”

50 members responded on a scale from 1-5 (1 = never and 5 = always)
