

Are you an adult that has difficult to treat depression?

A female healthcare professional with a stethoscope around her neck, wearing a light grey button-down shirt and black pants, holds a white sign.

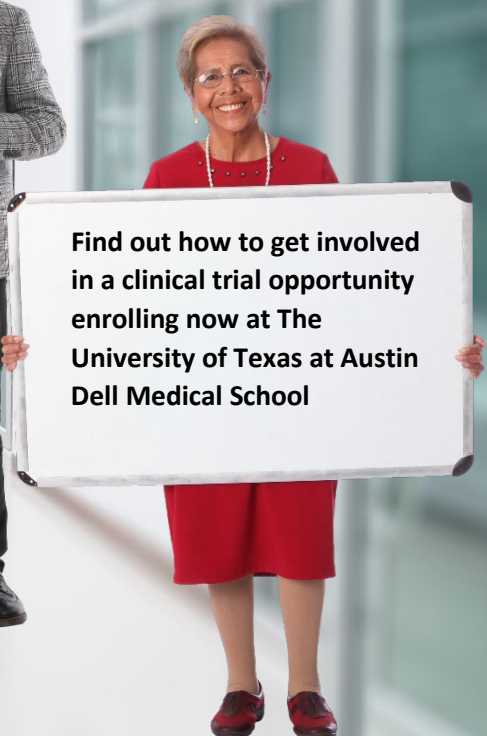

If so, you are NOT alone!

A man with glasses, wearing a dark suit and tie, is seated in a wheelchair and holding a white sign.

About 1/3 of people with depression become treatment resistant

A young man with short brown hair, wearing a grey blazer and black pants, holds a white sign.

Treatment resistant means that several medications or therapies did not help a patient's depression.

An elderly woman with short grey hair and glasses, wearing a red dress and a necklace, holds a white sign.

Find out how to get involved in a clinical trial opportunity enrolling now at The University of Texas at Austin Dell Medical School
