IMMUNIZATION REQUIREMENTS
THE UNIVERSITY OF TEXAS AT AUSTIN
COLLEGE OF PHARMACY

Measles, Mumps & Rubella (MMR)

One of the following is required: 2 vaccines for measles, 2 vaccines for mumps, and 1 dose of rubella; OR positive antibody titers for all three (lab report required). If no record of previous vaccines, or any titer is negative or equivocal, new alerts\(^4\) will be created for you to repeat one or more of the vaccinations\(^5\).

Series in process will not be accepted.

Varicella (Chicken Pox)

Submit documentation of two doses of vaccines, OR a positive antibody titer (lab report required). If the titer is negative or equivocal, new alerts will be created for you to receive a repeat series.

Series in process will not be accepted.

Hepatitis B

One of the following is required: 3 vaccines AND a positive antibody titer (lab report required) OR any declination signed by a health care provider\(^6\). If your titer is negative or equivocal new alerts will be created for you to either: 1) receive one dose of the vaccine and repeat the titer. If the titer is negative or equivocal, finish the series and repeat the titer; OR 2) repeat the three vaccination series and repeat the titer. If the series is in process, submit where you are in the series and new alerts will be created to complete the series and titer.

Influenza

Submit documentation of a current flu shot. Documentation must contain the LOT # of the vaccine. A declination will be acceptable, must be signed by a health care provider. Renewal date will be set for October 15 of the following flu season.

Tetanus, Diphtheria & Pertussis (Tdap)

Submit documentation of a Tdap vaccine administered on or after 7/1/2005. DTaP and Td are not acceptable.

TB Test\(^*\)

**Baseline (entering P1 students)**

One of the following is required:
- 2 step skin test (1-3 weeks apart) PLUS all subsequent annual testing. Alternatively, the first test may be within the past 12 months. With either scenario, the most recent test must be within 30 days of the first day of fall classes; OR
- Negative Quantiferon Gold Blood test (lab report required) within 30 days of the first day of fall classes; OR
- Negative T-Spot Test within 30 days of the first day of fall classes (lab report required)

**Continuing P2 and P3 students**

One of the following is required:
- 1 step skin test; OR
- Negative Quantiferon Gold Blood test (lab report required) within 30 days of the first day of fall classes; OR
- Negative T-Spot Test within 30 days of the first day of fall classes (lab report required)

**Matriculating P4 students**

See requirements for P2 and P3 students, except that tests must be run between May 15 and July 1 of the P3 → P4 year

\(^*\) If positive results are reported for any tests during the P1-P4 years, submit a clear chest x-ray (x-ray report required) at matriculation or within the last 12 months. Additionally, submit an annual TB symptom questionnaire within 30 days of the first day of fall classes.
