In Fall 2018, I will be a: Junior II Senior I Senior II RN-BSN
(Pedi experience preferred)

Dates: July 25 to August 28: **Mandatory orientation is July 25-27**; rest of schedule is variable.
Students will work approximately 12 hours/week.

Note: If you would like to receive course credit for this internship, please also complete the Independent Study Form and follow the instructions to register and pay for the course.

Students should complete attached questionnaire explaining interest in this learning experience

Applicants will be reviewed and finalists may be called for a phone interview. Decisions will be made by May 21st.

Program description: Students will be trained to analyze shot records, administer immunizations, practice physical and developmental assessment, and care for children seeking well child care and care for acute and chronic illnesses, including sports physicals in a primary care setting. The Children's Wellness Center is a nurse-managed school-based clinic serving newborns to adolescents and working in the community to promote health and prevent illness.

Program objectives:

1. Demonstrate knowledge of childhood immunizations and perform patient /parent teaching
2. Administer pediatric medications via oral, intramuscular, subcutaneous, and intra-dermal routes
3. Determine necessary immunizations to meet community and school district requirements
4. Practice history taking and physical examination skills
5. Increase cultural competence with underserved and indigent populations and provide services to community agencies
6. Practice nursing in a primary care setting

Activities to achieve objectives:

Orientation and practice with immunizations, physical exams, patient teaching, acute and chronic disease management.

Students are required to meet the same professional expectations and responsibilities as in any clinical course, including attendance and completion of internship.

*All students completing internship will receive \$1000 stipend **pending receipt of funding.**
