

The National Museum of the Pacific War (NMPW), founded in 1967, is the only institution in the continental United States dedicated exclusively to a mission "to engage and inspire present and future generations with the story of World War II in the Asiatic-Pacific Theater and interpret the continued global relevance of its lessons." Spanning six acres in downtown Fredericksburg, Texas, the Museum features three galleries with more than 55,000 square feet of exhibit space.
