

Texas School Counselor Association, UT Dallas, the National Center for Women & Information Technology, Bank of America, State Farm and CS4TX invite middle and high school counselors to:

## COUNSELORS FOR COMPUTING

### *Professional Development in Emerging Careers*

.....  
 : Friday, February 24, 2017 :  
 .....

9:00 am - 3:00 pm

State Farm at CityLink in Richardson, Texas

*Get information and resources you can use to set students on a path toward stable, rewarding and flexible computing careers that change the world!*

During the program, you will:

- Try your hand at coding
- Learn about career prospects in this fast-growing sector, and why employers want a large and diverse talent pool from which to draw
- Learn about changes in computer science education, including:
  - Local computer science education initiatives that lead to more course offerings
  - What new courses are like, and how they count toward graduation and preparation for postsecondary pathways
  - Why computer science is a fundamental literacy, no matter what your students' plans
- Meet technology professionals, learn about their jobs and how they found their way into computing
- Tour CityLink, where State Farm manages more information than is held in the Library of Congress!
- Enjoy lunch and receive continuing education credit

*\$20.00 fee supports the Texas School Counselor Association, is refunded to you in the form of an Amazon gift card upon completion of the day's program.*
